INTRODUCTION

The Illinois Register is the official state document for publishing public notice of rulemaking activity by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. Rulemaking activity consists of proposed or adopted new rules or amendments to or repealers of existing rules, including those by emergency or peremptory action.

The *Register* also contains Executive Orders and Proclamations issued by the Governor, notices of public information required by State statute, and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies. In addition, the *Register* contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current *Register* volume and a Sections Affected Index listing, by Title of the *Illinois Administrative Code*, each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume. Both indices are action coded and are designed to aid the public in monitoring rules.

The *Register* will serve as the update to the *Illinois Administrative Code*, a compilation of the rules of State agencies. The most recent edition of the *Code* along with the *Register* comprise the most current accounting of the State agencies' rules.

The *Illinois Register* is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act (Ill. Rev. Stat. 1985, ch. 127, pars. 1001 et seq., as amended).

Section 2630.82 Procurement

a) Procurement Systems for State Agency Grantees and Subgrantees - State agency grantees and subgrantees shall administer procurement systems in accordance with the Standard Procurement Rules of the Department of Central Management Services (44 Ill. Adm. Code 1) for selection of JTPA providers.

b) Procurement Systems for Non-State Agency Grantees and Subgrantees - All grantees and subgrantees shall administer procurement systems. The procurement system shall take into consideration past performance (e.g., entered employment rates, cost per placement, and ability to meet contract objectives). The procurement system may consider other criteria as determined locally. The procurement system shall include the following requirements:

1) Grantee/Grantor Responsibility

These standards do not relieve the grantee/subgrantee of any contractual responsibilities under its contracts. The grantee/subgrantee is responsible, in accordance with good administrative practice and sound business judgment for the settlement of all contractual and administrative issues arising out of procurements entered in support of a grant. These include but are not limited to source evaluation, protests, disputes, and claims. Violations of law are to be referred to the local, State, or Federal authority having proper jurisdiction.

2) Code of Conduct

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

- A) Grantees/subgrantees shall maintain a written code or standards of conduct which shall govern the performance of their officers, employees or agents engaged in the award and administration of contracts supported by Federal funds. Pursuant to Section 141(f) of the Act, no Private Industry Council (PIC) member shall participate in the selection or in the award of a contract supported by Federal funds if a conflict of interest, real or apparent, is involved. Additionally, no employee, officer, or agent of the grantee/subgrantee, or governing body of the grantee shall participate in the selection, or in the award or administration of a contract supported by Federal funds if a conflict of interest, real or apparent, is involved. Such a conflict shall arise when the employee, officer or agent; any member of his or her immediate family; his or her partner; or an organization which employs any of the previously identified, has a financial or other interest in the entity selected for an award. This provision does not prohibit a community based organization, education agency, employer, or other service provider represented by a PIC member from receiving a subgrant for the provision of training and/or services to participants. However, when such a conflict of interest arises, PIC members must abstain from voting on the award of the subgrant. The grantee is prohibited from awarding a subgrant
- i) to any PIC member for performing administrative services (i.e., consultant services, accounting services, etc.); or
- ii) to any PIC member or entity with which he/she is affiliated which results in direct personal gain to the PIC member.
- B) The grantee's/subgrantee's officers, employees or agents shall neither solicit nor accept gratuities, favors, or anything of monetary value from service providers, potential service providers (i.e., persons who perform services of type contracted for), or parties to grants.

3) Selection Procedures

- A) All procurement transactions, regardless of whether by sealed bids or by negotiation and without regard to dollar value, shall be conducted in a manner that

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

provides maximum open and free competition consistent with this Section. Procurement procedures shall not restrict or eliminate competition. Examples of what shall be considered to be restrictive of competition include, but are not limited to:

- i) placing different requirements on various firms in order for them to qualify for the same procurement;
- ii) noncompetitive practices between firms;
- iii) organizational conflicts of interest; and
- iv) unnecessary experience and bonding requirements (i.e., requests for qualifications or experience that are not related to the services to be procured).

B) The grantee/subgrantee shall have written selection procedures which shall provide, at a minimum, the following procedural requirements:

- i) Solicitations of offers, whether by competitive sealed bids or competitive proposals shall incorporate a clear and accurate description of the technical requirements for the service to be procured. Such description shall not, in competitive procurements, contain features which restrict competition. The description shall include a statement of the qualitative nature of the service to be procured and set forth those standards to which the service shall conform in order to meet the program purpose. Solicitations of offers shall clearly set forth all requirements which service providers/contractors must fulfill and all other factors to be used in evaluating proposals pursuant to Section 2630.2 of this Part.

- ii) Awards shall be made only to service providers/contractors that demonstrate the ability to meet objectives of the proposed procurement. Examples of how the ability to meet the procurement objectives can be demonstrated include, but are not limited to: financial resources, technical qualifications, experience, organization and facilities

adequate to carry out the project; resources to meet the completion schedule contained in the contract; a satisfactory performance record for completion of contracts; and accounting and auditing procedures adequate to control property, funds and assets, pursuant to Sections 2630.83(a) and (b) and 2630.84(c) through (i) of this Part.

- 4) Methods of Procurement - Procurement under grants shall be made by one of the following methods: procurement by small purchase procedures, procurement by sealed bids, procurement by competitive proposals, or procurement by noncompetitive proposals.

A) Small purchase procedures are those relatively simple (e.g., price or rate quotations documented to the file which describe what is being procured, date provided, provider, amount and delivery date) and informal procurement methods for securing services, supplies, or other property that do not cost more than \$25,000 in the aggregate with a single vendor during a fiscal year. If small purchase procurements are used, price or rate quotations will be obtained from an adequate number of qualified sources.

B) Sealed bids are publicly solicited and a firm-fixed-price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is lowest in price. The sealed bid is the preferred method for procuring construction, if the conditions which follow apply. In order for sealed bids to be feasible, the following conditions should be present: a complete, adequate and realistic specification or purchase description is available; two or more responsible bidders are willing and able to compete effectively for the business; and the procurement lends itself to a firm-fixed-price contract and the selection of the successful bidder can be made principally on the basis of price. If sealed bids are to be used, the following requirements apply:

- i) the invitation for bids will be publicly advertised and bids shall be solicited from an adequate number of known suppliers as evidenced by documentation of an attempt to identify and obtain three bids, providing them sufficient

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

time (a minimum of ten working days) prior to the date set for opening the bids;

- ii) the invitation for bids, which will include any specifications and pertinent attachments, shall define the items or services in order for the bidder to properly respond;

- iii) all bids shall be publicly opened at the time and place prescribed in the invitation for bids;

- iv) a firm-fixed-price contract award will be made in writing to the lowest responsive and responsible bidder. Where specified in bidding documents, factors such as discounts, transportation costs, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts may only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of; and

- v) any or all bids may be rejected if there is a sound, documented reason.

C) Procurement by competitive proposals is normally conducted with more than one source submitting an offer, and either a fixed-price or cost-reimbursement type contract is awarded. It is generally used when conditions are not appropriate for the use of sealed bids. If this method is used, the following requirements apply:

- i) Requests for proposals will be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals shall be honored to the maximum extent practical;

- ii) Proposals will be solicited from an adequate number of qualified sources;

- iii) Grantees and subgrantees will have a method for conducting technical evaluations of the proposals received and for selecting awardees;

- iv) Award will be made to the responsible firm whose proposal is most advantageous to the

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

program, with price and other factors considered; and

- v) Grantees and subgrantees may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

- D) Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source, or if after solicitation of a number of sources competition is determined inadequate.

- i) Procurement by noncompetitive proposals may be used only when the award of a contract is infeasible under small purchase procedures, sealed bids, or competitive proposals and one of the following circumstances applies: the item is available only from a single source; the public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation; the awarding agency authorizes noncompetitive proposals; or after solicitation of a number of sources, competition is determined inadequate.

- ii) Cost analysis, i.e., verifying the proposed cost data, and the evaluation of the specific elements of costs and profit, is required.

5) Grantee Procurement Records

Grantees shall maintain records which detail the history of a procurement. These records shall include, but are not necessarily limited to the following: the method of procurement, and the basis for the selection or rejection of a service provider.

- c) Sole source awards for on-the-job training of program participants may be made, provided that an employer-employee

DEPARTMENT OF COMMERCE AND COMMUNITY AFFAIRS

NOTICE OF PROPOSED AMENDMENTS

relationship exists and that the employer will provide job training to enable the participant to perform as a regular employee of the employer's (or another employer's) establishment. When such awards are made, records of the awards shall be maintained.

- d) All grantees and subgrantees shall maintain a list of potential providers/contractors who have expressed an interest, in writing, in being considered for awards. The list shall include names, addresses, and services. All potential providers/contractors, who have expressed interest in being considered for awards, shall be sent Requests for Proposals for the area or areas of service for which they wish to be considered. The list shall be considered to be public information.

- e) Classroom training, either vocational or academic, may be procured through sole source award without a cost analysis provided that:

- 1) the training is provided by an accredited or certified institution;
- 2) tuition is charged, on a per hour, per course, or per curriculum rate;
- 3) the training is the same provided to non-JTPA individuals; and
- 4) the tuition rate is listed in a course catalog and is the same as for non-JTPA individuals.

- f) Programs determined to be effective by the Private Industry Council (PIC) using locally developed standards of effectiveness may be continued by noncompetitive proposals in accordance with subsection(b)(4)(D) provided that

- 1) in the case of programs operated by service delivery areas, as defined in Section 101 of the Act, the Private Industry Council (PIC) reviews their performance and supports continuation of the grant; and
- 2) in the case of programs supported by funds authorized by Sections 202(b) and 301 of the Act, the Illinois Job Training Coordinating Council, in accordance with Section 122(b) of the Act, reviews their performance.

15) Summary and Purpose of Rules:

These amendments address requirements of recent legislative changes and issues which have arisen in the administration of the AIDS Confidentiality Act, AIDS Registry Act and other laws concerning AIDS. These issues concern deletion of the marriage licensing testing and certification requirements, expansion of the Department approved HIV tests, expansion of the situations under which written informed consent is not required, clarification of certain health care providers right to disclosure of HIV test results in the appropriate situations, expansion of persons who may receive HIV test information, clarification of the requirement of disclosure to the Department of Public Health, various technical changes and updating the statutory and regulatory references to AIDS. Public Act 86-884, effective September 11, 1989 repealed the requirement that marriage license applicants obtain a medical examination, including laboratory tests for syphilis and HIV infection and a physician certificate which must be submitted to county clerks to receive a marriage license. These requirements were replaced with a requirement that a brochure describing sexually transmittable and metabolic genetic diseases must be distributed by county clerks to all marriage license applicants. Because these requirements were repealed, Sections 697.10(f), 697.30(a)(3), 697.130(b)(2), 697.140(a)(8), 697.150, 697.300(a)(2), (f) and (g)(7)(A) and (B), Appendix A and Appendix B are amended or repealed.

In addition, the medical examination may be conducted by a physician licensed in any state upon certification by the physician that he/she is licensed in that state.

- a) All Illinois physicians who conduct these examinations shall provide the pre-test information set forth in Section 697.110(a) before ordering HIV tests.
- b) Upon request of the patient, a physician may label the blood sample drawn to conduct the required pre-marital tests for syphilis and HIV, in such a manner as to prevent persons other than the physician from learning the identity of the test subject.
- c) The laboratory tests to determine exposure to HIV shall consist of an enzyme-linked immunosorbent assay (ELISA) test to determine the presence of antibodies to HIV or such other test as may be approved by the Department. (See Section 697.100 for a list of approved tests.) The testing process shall comply with the procedures established by the Department in Section 697.100, which require repeatedly reactive samples using the ELISA test to be tested with the confirmatory Western Blot Assay or indirect fluorescent antibody Assay tests.
- d) The results of the HIV tests shall be provided by the physician(s) who administered the tests to both parties to the proposed marriage.
- 1) If the test results consist of negative or repeatedly reactive or positive ELISA results which are not confirmed by a confirmatory test, the required notification does not have to be done in person.
- 2) If the test results consist of repeatedly reactive ELISA results which are confirmed by the Western Blot assay or indirect fluorescent antibody Assay tests, then it shall be the duty of the physician who administered the tests before issuing the required certificate to give notice of such result in person to both parties to the proposed marriage and to provide them-

WITH INFORMATION REGARDING THE MEANING OF SUCH RESULT AND THE AVAILABILITY OF FURTHER TESTING AND COUNSELING, IF APPROPRIATE in the judgment of the health care provider.

e) IT SHALL BE THE DUTY OF SUCH PHYSICIAN TO NOTIFY THE DEPARTMENT OR SUCH OTHER PUBLIC HEALTH AUTHORITY AS MAY BE SPECIFIED BY LAW OF ANY SUCH POSITIVE HIV TEST RESULT. Such notification shall be made without the use of information identifying the individual with a positive test result. When the seropositive individual resides in a city or county with a full-time local health authority, such report shall be made to the local health authority. In all other cases, such report shall be made directly to the Department. (Section 204 of the Illinois Marriage and Dissolution of Marriage Act (111 Rev. Stat., 1987, ch. 40, 1-par. 204).)

f) IT SHALL BE UNLAWFUL FOR THE COUNTY CLERK OF ANY COUNTY TO ISSUE A LICENSE TO MARRY TO ANY PERSON WHO FAILS TO PRESENT FOR FILING WITH SUCH COUNTY CLERK A CERTIFICATE ISSUED AND SIGNED BY THE PHYSICIAN WHO ADMINISTERED THE HIV TESTS, UNLESS THE APPLICANT IS EXEMPT FROM THIS REQUIREMENT BECAUSE OF RELIGIOUS REASONS UNDER SECTION 206 (2) OF THE ILLINOIS MARRIAGE AND DISSOLUTION OF MARRIAGE ACT (111 Rev. Stat., 1987, ch. 40, par. 206). SUCH CERTIFICATE SHALL INDICATE THAT THE REQUIRED TESTS WERE ADMINISTERED AND THAT THE RESULTS HAVE BEEN PROVIDED TO BOTH PARTIES, BUT THE CERTIFICATE SHALL NOT INDICATE THE RESULTS OF THE TESTS. (Section 204 of the Illinois Marriage and Dissolution of Marriage Act) (111 Rev. Stat., 1987, ch. 40, par. 204). (See Appendix A, Illustration B for a Sample Marriage License Testing Certificate.)

This exemption also extends to the physician or other health care provider that performs such tests.

b) Health maintenance organizations, insurance companies, fraternal benefit societies, health services corporations and other insurers subject to regulation under the Illinois Insurance Code THAT REQUIRE ANY INSURED PATIENT OR APPLICANT FOR NEW OR CONTINUED INSURANCE OR COVERAGE TO BE TESTED FOR INFECTION WITH HUMAN IMMUNODEFICIENCY VIRUS (HIV) OR ANY OTHER IDENTIFIED CAUSATIVE AGENT OF ACQUIRED

IMMUNODEFICIENCY SYNDROME (AIDS) SHALL:

1) GIVE THE PATIENT OR APPLICANT PRIOR WRITTEN NOTICE OF SUCH REQUIREMENT,

2) PROCEED WITH SUCH TESTING ONLY UPON THE WRITTEN AUTHORIZATION OF THE APPLICANT OR PATIENT, AND

3) KEEP THE RESULTS OF SUCH TESTING CONFIDENTIAL.

c) NOTICE OF AN ADVERSE UNDERWRITING OR COVERAGE DECISION MAY BE GIVEN TO ANY APPROPRIATELY INTERESTED PARTY, BUT THE INSURER MAY ONLY DISCLOSE THE TEST RESULT ITSELF TO A PHYSICIAN DESIGNATED BY THE APPLICANT OR PATIENT, AND ANY SUCH DISCLOSURE SHALL BE IN A MANNER THAT ASSURES CONFIDENTIALITY. (Section 2.02 of "AN ACT concerning rights of medical patients") (Section 201 of P.A. 86-677 and 86-679, effective September 21, 1987).

- 3) Any person twelve (12) years of age or older may consent to testing and counseling at an HIV Counseling and Testing Center.

- b) No person may be subjected to an HIV antibody test at HIV Counseling and Testing Centers, unless written informed consent is first obtained from the test subject or the test subject's legally authorized representative.  - 2) The natural history and progression of HIV infection;
 - 3) Methods for preventing transmission of HIV infection;
 - 4) Principles and techniques of counseling, including demonstration of interviewing and counseling skills needed for epidemiologic management of HIV infected persons, critiqued role-playing, psychologic assessment and crisis intervention;
 - 5) Principles and techniques of contact investigation and referral; and
 - 6) Principles of communicable diseases.
- f) It shall be the duty of every person providing results of an HIV antibody test to provide the subject of the test with an explanation of the test results, methods for prevention of HIV transmission, and referrals for medical and psychological follow-up appropriate to the needs of the test subject. These referrals shall include appropriate referrals to physicians who will provide services to seropositive individuals, tuberculosis and sexually transmissible disease services diagnoses-services, facilities for psychological counseling and crisis intervention and substance abuse treatment facilities as available.

- g) All persons with a positive HIV antibody test shall be offered the assistance of health professionals in locating and referring sex and needle sharing contacts for counseling and testing, with the consent of the infected person. All persons refusing such assistance shall be strongly encouraged to notify their previous sex and needle sharing contacts of their possible exposure to HIV, and to refer such contacts for counseling and possible testing.

investigated. Investigation shall be conducted for contacts for whom sufficient information to identify the person is available, such as first and last name, street address, or telephone number.

3) The counselor may prioritize the order in which contacts are to be investigated. The counselor shall provide first priority to those contacts who (based again on the counselor's professional judgment), except for contact notification, may not have reason to suspect they may be infected because the counselor has no information that the contacts:

- A) are aware of having engaged in behavior likely to result in exposure and/or;
- B) are knowledgeable about the type of behavior carrying such risks.

- 4) Persons choosing to self-refer their contacts shall receive intensive individualized instruction and counseling in methods to provide this notification and referral.

Such persons shall also be offered testing to determine infection.

- 6) If such person is legally unable to agree to counseling due to age or legal incompetence, consent and participation in counseling shall be requested of the individual's parent or legal guardian. If such person is legally able to agree to but appears to be incapable of understanding and competently acting on such counseling, in the professional judgment of the counselor, participation in counseling shall be requested of a parent or other person chosen by the client.

- 7) Record Retention

- A) All records regarding contacts to cases of AIDS or HIV infection, ~~AR67--or-HIV-infected-persons~~, and all information collected in investigations of contacts to HIV infection shall be maintained until the Local Health Authority, Designated Agency or the Department is able to document that counseling has been provided to the contact or document that all attempts to locate the contact have been unsuccessful. In no case shall such records be maintained for a period to exceed six months. After six

months, such records shall be destroyed completely by shredding or other form of obliteration.

- h) It shall be the duty of every person conducting an HIV test in a HIV Counseling and Testing Center to provide results of the test only to the individual upon whom the test was performed. Such results are to be provided only in an individual face-to-face interview. The test subject may elect to have other persons present during the interview. It shall be the duty of the person providing the counseling to determine that the presence of a second party during the interview is not the result of undue inducement such as any element of force, fraud, deceit or other form of constraint or coercion.

- i) It shall be the duty of every person with access to an individual's HIV antibody test results to maintain strict confidentiality of those results and the test subject's identity as required by law as specified in Section 697.140.

Amendments proposed March 8, 1991 (15 Ill. Reg. 3422):

This rulemaking prohibits hospital personnel responsible for the preparation of the Certificate of Live Birth from requesting any information or consent from the birth mother or from presenting the worksheet or the original certificate to the birth parents in the presence of anyone other than hospital personnel directly involved in the patient's care. The rulemaking also requires hospitals to obtain the father's signature on the birth certificate in a manner that will not allow the father to view the data contained in the section of the certificate entitled "Information for Medical and Health Use Only", unless the hospital has obtained the mother's written informed consent allowing the father access to such information. In addition, the rulemaking requires hospitals to maintain the birth certificate in a confidential and secure manner, and specifies the Department's procedures concerning the release of information from the birth certificate to private researchers.

- b) Nothing herein shall be construed as authorization to permit access to, or inspection of, the vital records by any person other than the custodians or their employees, nor as authorization to disclose information contained in such records, or copy, or permit to be copied, all or any part of such records, except as authorized by the Act and this Part regulation adopted pursuant thereto.
- c) It shall be the duty of the person(s) responsible for the completion of the Certificate of Live Birth to ensure that the information necessary to complete the form is collected, recorded and maintained in a confidential manner. This includes retaining in a secure manner only one copy of either the original birth record or the worksheet unless the hospital can demonstrate to the State Registrar that more than one copy is necessary for the maintenance of hospital records. Under no circumstances shall the original certificate or worksheet be disclosed to anyone other than hospital officials responsible for completing the form, the State Registrar, or hospital personnel directly involved in the birth mother's care and then only for administrative or health care purposes.
- d) Hospital personnel responsible for the preparation of the Certificate of Live Birth are strictly prohibited from requesting any information or consent from the birth mother or from presenting the worksheet

The father's signature shall be affixed to the original birth certificate in a manner that will not divulge the data contained in the section entitled "Information for Medical and Health Use Only".

e) Under no circumstances shall the section of the Certificate of Live Birth entitled "Information for Medical and Health Use Only" be disclosed to anyone, with the exception of the birth mother, the State Registrar, and hospital personnel directly involved in the birth mother's care, unless written informed consent has been given by the mother. - c) The application shall include all information required by the application form, and shall be accompanied by documents which prove all facts necessary to complete the certificate of birth to the satisfaction of the State Registrar. Either the original document, a certified photograph or transcript of the original document, or a certified statement of the pertinent facts in a document may be accepted as proof. Documents shall show when and with what agency or official the information was originally recorded, including any particular identifying number and the complete address of such agency or official. If the birth occurred at home, the State Registrar may require the applicant to provide documents proving that the mother resided at the address where the child was born and that such residency included the date of birth of the child.

If the State Registrar determines that a document has apparently been altered or may be counterfeit, law enforcement authorities shall be so informed. Applications which are incomplete, based upon misrepresentation, or are accompanied by documents which appear to be altered or counterfeit shall be rejected, and the birth record shall not be filed until a court determination of the facts has been made.
- e) The State Registrar may, but need not, return any documents, excepting only affidavits, to the persons who submitted the documents.
- f) If the name of the person whose birth is to be registered has ever been changed, the name at birth and the name later acquired shall be entered in the appropriate items on the application. A certified copy of the court order or decree shall be submitted if the name was acquired by court action; otherwise, a statement explaining the

circumstances relating to the change of name shall be submitted.

- g) If the mother was not married to the father of the child either at the time of conception, birth, or any time in between, the name of the father shall not be entered on the birth record without the written consent of the mother and the person to be named as the father, unless a determination of paternity has been made by a court of competent jurisdiction in which case a certified copy of the court order shall be submitted. The written consent may be furnished by separate statements by the mother and father, or by having both of them sign in the appropriate items on the application.
- h) If the child is more than three (3) days and less than one (1) year of age on the date of application, the local registrar may require the parent or legal guardian to appear in person with the child as a prerequisite to forwarding the certificate of birth to the State Registrar. The birth shall be registered on the current Certificate of Live Birth and shall be signed by:

- 1) THE PHYSICIAN IN ATTENDANCE AT OR IMMEDIATELY (within 72 hours) AFTER THE BIRTH, OR IN THE ABSENCE OF SUCH A PERSON,

DEPARTMENT OF PUBLIC HEALTH
NOTICE OF ADOPTED AMENDMENTS

1) Records created at or nearest following the date of birth provide the best proof to correct the child's given name or date of birth. Records created prior to the birth of the child are required to correct the given names of the parents, surname of the child and/or father, or mother's maiden name, color or race of parents, or age and birthplace of parents. Records created at or nearest following the decedent's birth provide the best proof to correct name, age, birthdate, and birthplace. However, if such proof is not available, records created later in life may be accepted.

2) To correct color or race on a death record, the best evidence is the decedent's birth or marriage record or birth certificate of a child of the decedent. To correct marital status, the best evidence is the decedent's marriage record, spouse's death record, or divorce decree, if any, or other court records. To correct a fetal death record, information on documents required for similar items on live birth and death certificates shall be furnished.

3) To correct other items on a certificate, such documentary evidence shall be required as is deemed necessary to preserve the integrity of the certificate. More than one document may be required in some instances. Some corrections may not require documentary proof, depending on the nature of the correction and the identity of the affiant in relation to the registrant. The burden of submitting proof is on the applicant. The State Registrar shall make the final determination of whether the document submitted satisfactorily proves the correction sought. Any documents submitted, whether accepted or rejected as proof, shall be returned to the applicant, or his or her representative. Examples of available documents which substantiate facts are:

- H) Parents' marriage record;
- I) Parent's birth record(s);
- J) Immunization or clinic records;
- K) Insurance policies;
- L) Parent's Naturalization certificate;
- M) Census records; or
- N) Other documents as deemed appropriate.

The correct information is then typed or written above or near the incorrect information. A statement to the effect that the certificate has been amended, and the date, shall appear on the face of the certificate.

1) The original of the correction form shall be permanently retained by the Department, either as an original record or in microphotographic form. An approved copy of the correction form, or an official copy of the certificate as corrected, shall be sent to the county clerk and local registrar, as their authority to correct their file copies of the certificate.

2) The applicant shall be notified that the correction has been approved and made.

3) Certifications or certified copies of the certificates as corrected will be furnished upon the written request of an eligible applicant as provided in Section 25 of the Act. i) A correction form is not required to amend the surname on a birth certificate when the person has obtained a legal change of name from a court of competent jurisdiction. The new names will be entered on the original certificate in the files of the State Registrar by interlineation. The certificate shall be marked as having been amended and the decree number and the effective date entered. The State Registrar shall send the county clerk and local registrar official copies of the original certificate, as amended, to replace the copies in their files. Thereafter, any certifications or certified copies issued shall indicate that the certificate has been changed and the date of the amendment.

1) The addition of the father's identity on the child's birth certificate, at the request of the natural father and mother, does not permit the changing of the child's surname to that of the father.

2) A) The name of the informant (if parent), the name of the

child and the name of the mother and/or father may be amended on the child's birth certificate, based upon a change of name granted to the parent(s) by a naturalization court or other court of competent jurisdiction. This applies only if the name change was granted while the child was a minor.

B) If the child is of legal age at the time of his/her parent(s) naturalization, the Division of Vital Records is only authorized to amend the informant's name (if parent) and/or the parent(s) name(s) on the child's certificate of birth.

j) A delayed birth registration established by court order under the provisions of Section 15 of the Act shall be amended by the State Registrar only upon the basis of an order from the court which originally established the facts of birth. The procedure followed in amending the certificate and issuing copies of the same is as described above regarding legal name changes.

k) To change the given name of a child on a new birth certificate filed under Section 17 of the Vital Records Act (if the applicant has knowledge of the adoption), a certified copy of an amended Adoption decree or an amended Certificate of Adoption will be required as proof.

l) A voluntary change of name, spelling of the given names or surname, or the order of the given names and/or surname as such names appear on the birth record, shall not be reflected upon the birth record unless a request for such "correction" is accompanied by an appropriate court order.

m) When a request for a correction constitutes change in identity of the registrant or the father or mother, a court determination is required to reflect such change on the birth record.

n) The State Registrar shall not at the request of any person change a written signature on a record under the correction provisions. Such a change shall only be reflected on the certificate with a court determination.

o) The State Registrar shall not at the request of any person change a file date on a certificate; therefore, the integrity of the record is protected.

Section 500.45 New Certificates of Birth

This Section is based upon Section 17 of the Act. In the following instances, a new birth certificate shall be prepared (if requested) upon receipt of a Certificate of Adoption or a certified copy of the order of adoption and shall be filed by the State Registrar. Preparation of the new certificate is contingent upon the receipt of proper evidence. An amendment of a Certificate of Live Birth shall not be made in the following instances:

- a) Legal adoption (in Illinois or elsewhere) of a person born in Illinois;

- 1) Upon receipt of a Certificate of Adoption or a certified copy of the order of adoption pertaining to a single parent adoption, the Certificate of Live Birth shall reflect the following:

A) Mother adopts a child or an adult. The State Registrar shall enter in the item designation for father, "Single Parent Adoption," or "Single Parent," or leave this space blank.

B) Father adopts a child or an adult. The State Registrar shall enter in the item designation for mother, "Single Parent Adoption," or "Single Parent," or leave this space blank.

- 2) When alterations or discrepancies appear on the Certificate of Adoption regarding the name of the child (after adoption) or the adoptive parents' names, the State Registrar may review a certified copy of the adoption decree to determine the correct names. The State Registrar may, as an alternative, be presented with an amended Certificate of Adoption certified by the Clerk of the court, showing no alterations. The State Registrar may require additional information and/or documentation in order to verify other alterations and/or discrepancies found on the Certificate of Adoption.

- 3) Discrepancies in the date of birth between the natural birth record and the Certificate of Adoption shall be resolved by utilizing the date shown on the natural birth record, unless

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENTS

otherwise specified in the court decree, or other documentation. If in the judgment of the State Registrar, changing the date of birth to that of the natural birth record could reveal the adoptive status to the adoptee, the State Registrar may show the date of birth as indicated on the Certificate of Adoption.

4) In addition to the Certificate of Adoption, a certified copy of the adoption decree must be submitted to the State Registrar if it has been discovered that an adoptive parent was deceased at the time of adoption. The State Registrar will determine if there is legal authority to show that parent on the new birth record. If the certified copy of the adoption decree does not indicate the name of the deceased parent, the State Registrar shall require an amended decree of adoption.

5) In the absence of an original birth record on file, the State Registrar may prepare a birth record using the adoption decree which must establish the date of birth, place of birth, and parentage. The file date shall be shown as the date the decree was granted.

6) If the adoption decree failed to establish the date of birth, place of birth and parentage, a Delayed Record of Birth shall be filed. The file date on the new Certificate of Live Birth shall be shown as the date the decree was granted.

7) During the preparation of the new certificate, the State Registrar may verify from the adoptive parent(s), if necessary, how the informant's name is to be shown on the certificate.

8) The new birth certificate shall parallel an original certificate and by legal fiction purport in the case of an adoption, that the adoptive parents are the natural parents.

b) Inter-marriage of the natural parents after the child's birth or birth registration;

1) Prior to preparing a new Certificate of Live Birth for a child whose natural parents married subsequent to his/her birth, the State Registrar shall require the following:

A) Affidavits completed by the mother and natural father, properly signed and notarized; and

B) A certified copy of the marriage record.

2) When one or both of the parents are deceased, a certified copy

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENTS

of the death record along with a notarized statement from a member of the decedent's family, in lieu of the required affidavit, is needed. If a statement from the family is not obtainable, a copy of the deceased parent's obituary notice, insurance policy, will or letters of estate administrator may be substituted.

3) When the natural birth certificate lists a disputed father and the applicant requests the State Registrar to establish a new Certificate of Live Birth, based upon the legitimization provision of the Vital Records Act, the State Registrar shall review the divorce decree of that previously dissolved marriage. This is necessary in order to determine if there is administrative authority to remove the name of the father listed on the natural birth record. If there is sufficient evidence to remove the name of the previous husband, the State Registrar shall establish a new Certificate of Live Birth based upon affidavits of mother and natural father and their certified copy of marriage.

4) If this paternity issue cannot be established through administrative authority, the decision of paternity would first require court determination prior to establishing a new Certificate of Live Birth.

5) The State Registrar's authority to prepare birth certificates does not permit a determination of an issue or question of paternity of a child on mere affidavits.

6) During the preparation of the new certificate, the State Registrar may verify from the parents, if necessary, how the informant's name is to be shown on the certificate.

c) Determination of paternity by a court of competent jurisdiction; During the preparation of the new certificate, the State Registrar may verify from the parents, if necessary, how the informant's name is to be listed on the certificate. The informant's name should never be shown as a name different than the facts relevant to the preparation of the new record.

d) Change of sex designation following surgery by a physician;

1) For cases pertaining to adoption, legitimization, paternity or sex designation changes, the original birth certificate and copies of the original certificate from the local custodians' files shall be impounded and placed in a sealed file with related correspondence and documents. The new birth certificate shall be placed in the official State files, and copies of it shall be

sent to the local custodians for their files. Thereafter, any certifications or certified copies issued shall be of the new certificate.

- 2) In the event that a new Certificate of Live Birth is established by the Department based upon legal adoption, legitimation, paternity, or sex designation changes and the Department is thereafter presented with proper evidence that the Certificate of Live Birth may have been incorrectly withdrawn from the official State files and impounded, the Department shall open the impounded file and inspect its contents. If the Department determines from the contents of the impounded file and from the evidence presented that a mistake occurred with respect to the identity of the original record, the Department may restore the Certificate of Live Birth to the official State file and return copies to the local custodians for filing. In such cases, the new Certificate of Live Birth prepared upon the basis of legal adoption, legitimation, paternity or sex designation changes shall remain in the official State file. However, the Department shall use the appropriate State file number on the new certificate of Live Birth.

- 3) If a court of competent jurisdiction enters a decree or order in which it finds that it is in the best interest of a person for whom a new birth certificate has been established, that the original birth certificate be restored, the State Registrar, upon receipt of a certified copy of such order or decree, shall restore the original Certificate of Live Birth to its place in the files, and the new certificate and evidence shall not be subject to inspection or certification, except upon order of a court of competent jurisdiction.

- 4) The copies of the original birth certificate shall be returned by the State Registrar to the custodians of local records who shall replace them in their official files and surrender the copy of the newly prepared birth record to the State Registrar to be sealed from inspection.

Section 500.50 Transportation and Disposition of Dead Human Body

- a) A local registrar may issue a Permit for Disposition of Dead Human Body authorizing a hospital to incinerate a dead fetus (a product of gestation of 20 or more weeks) or the body of an infant who dies immediately after birth and prior to release from the hospital. This permit may be issued only to a funeral director or person acting as such and only upon the presentation of a completed and

DEPARTMENT OF PUBLIC HEALTH
NOTICE OF ADOPTED AMENDMENTS

satisfactory Certificate of Death (infant death) or Fetal Death.

- b) A local registrar may issue a Permit for Disposition of Dead Human Body authorizing the parents of a dead fetus or deceased infant to bury the body in a private burial plot, if so requested by a funeral director or person acting as such. This permit may be issued only to such funeral director and only upon the presentation of a completed and satisfactory Certificate of Death or Fetal Death.
- c) A Permit for Disposition of Dead Human Body authorizing disinterment is required prior to the disinterment of a dead human body or fetus. The same permit may also authorize transportation of the body by common carrier, if desired. Such Permit is to be issued by the local registrar of the district in which the disinterment is to be made and shall be issued only to a funeral director or person acting as such. The application permit (VR207) shall be signed by the next of kin (if known). If the next of kin is unknown, the VR207 permit shall be signed by the party contracting with the funeral director for the disinterment. Investigations conducted by the coroner, medical examiner, states attorney or any other related law enforcement official do not require the signature and/or approval from the next of kin, and the VR207 must be signed by the appropriate official, or by order of a court. In the event several bodies (or of an entire cemetery) are to be disinterred, the local registrar may issue to a funeral director a single Permit for Disposition of Dead Human Body to which a complete list (insofar as possible) of the identity of all the bodies is to be attached. In any case, the Permit for Disposition of Dead Human Body authorizing disinterment must also show the final disposition of the body or bodies.
- 1) Disinterred human remains may not be transported within the State unless ~~except upon being~~ accompanied by a ~~properly issued~~ Permit for Disposition of Dead Human Body. The transportation of disinterred remains by common carrier or by private conveyance is subject to the same rules as for any dead human body. However, the remains of repatriated U.S. war dead may be transported within Illinois on the basis of the burial-transit permit issued at the point of origin. This permit must be exchanged for an Illinois Permit for Disposition of Dead Human Body prior to interment or cremation in Illinois (see Section 500.50(d)(6)).
- 2) Disinterred human remains may not be reinterred within the State except upon explicit authorization to do so as evidenced by a ~~properly-issued~~ Permit for Disposition of Dead Human Body.
- d)

1) No dead human body may be: interred in a grave, vault, or tomb; except on authorization to do so on the basis of a Permit for Disposition of Dead Human Body issued by the local registrar of the district in which the death occurred, if the death occurred in Cook County. If the death occurred in a county other than Cook County, the permit may be issued by the funeral director, except when the death was subject to investigation by the coroner, in which case the permit must be signed issued by the local registrar of the district where the death occurred. No dead human body may be cremated or surrendered to a physician, surgeon, medical college or school or other institution of higher science-education or school of mortuary science and later cremated, except on authorization to do so on the basis of a Permit for Disposition of Dead Human Body issued by the local registrar of the district in which the death occurred. This permit shall be issued to an Illinois licensed funeral director or person acting as such, upon presentation of a completed and satisfactory Certificate of Death or Fetal Death.

2) No dead human body whose death was subject to the coroner's or medical examiner's investigation may be disposed of, (in Cook County) except on authorization to do so on the basis of a Permit for Disposition of Dead Human Body issued by the local registrar of the district in which the death occurred or (in counties other than Cook), the signing of Part II of the Report of Death by the local registrar of the district in which the death occurred. If disposition of any dead human remains is by cremation, no permit may be issued by the local registrar, unless he is presented with a duly executed Coroner's or Medical Examiner's Permit to Cremate a Dead Human Body.

3) No Permit for Disposition of Dead Human Body is required for the disposition of ashes from cremation, unless the ashes are to be buried in a cemetery. In that case, any local registrar or any funeral director may issue the permit.

4) No Permit for Disposition of Dead Human Body is required for the disposal of a part of a living human body, such as an amputated arm or leg, except when the part is to be interred in a cemetery. In that case, upon being requested to do so, the local registrar of the registration district where the cemetery is located will issue a Permit for Disposition of Dead Human Body. Said permit shall be issued upon receipt of a letter from the institution that performed the amputation or is in custody of the amputated part(s).

5) A dead fetus resulting from a fetal death is considered to be a

dead human body, and its transportation and disposition are subject to this Part all of these rules. However, if the dead fetus was delivered before the twentieth week of pregnancy, a Permit for Disposition of Dead Human Body is not required, unless interment of the remains is to be made in a cemetery. In such cases, if the fetal death occurred in Cook County, the local registrar will issue a permit upon presentation to him of a completed Certificate of Fetal Death. If the fetal death occurred in a county other than Cook County, and was not subject to the coroner's investigation, any the funeral director can will issue the permit. If the fetal death was subject to a coroner's investigation, the local registrar of the district where death occurred shall sign the permit.

6) A Permit for Disposition of Dead Human Body authorizing the disposition of the remains of the repatriated U.S. war dead shall be issued to the receiving funeral director by the local registrar of the district in which the body is to be interred or cremated. This Permit for Disposition of Dead Human Body shall be issued in exchange for the burial-transit papers accompanying the body.

e)

1) It shall be the duty of every person taking charge of the preparation for removal or burial of a dead human body to ascertain whether death occurred from a communicable disease. If death was from a communicable disease, the body may be prepared only by a licensed embalmer who shall thoroughly embalm the body with an approved disinfecting fluid by arterial and by cavity injection, who shall close all orifices with absorbent cotton, who shall wash the body with an approved disinfecting fluid, and who shall at once place the body in a coffin or casket. If the death was from smallpox, plague, or cholera, the coffin or casket shall be permanently closed. The casket may be provided with a plate of glass of sufficient dimension to disclose the face, but the casket shall not be opened under any pretext whatsoever after it is once closed.

2) When death was from a communicable disease other than plague, cholera, or smallpox, a public funeral may be held from a funeral home, church or other appropriate public place. A public funeral may be held from the residence of the deceased only in case the specific communicable disease does not require quarantine of the premises or control of contact with the case beyond the termination of the case. If such quarantine is required, a private funeral from the premises may be held, provided that it is attended only by the occupants of the

DEPARTMENT OF PUBLIC HEALTH
NOTICE OF ADOPTED AMENDMENTS

premises and by such persons as are necessary to conduct the funeral; contacts to the deceased who are under quarantine may attend a private funeral for the deceased and may follow the remains to the grave in a closed car, provided that they do not leave the car and do not come in contact with any person not under the quarantine; home contacts are to remain under quarantine after the death of the case for the unexpired period of the quarantine in the following diseases: cholera; plague; smallpox; typhus fever and in diphtheria until both a nose and throat culture are negative for diphtheria bacilli.

3) Under all circumstances, while being transported the body shall be kept within a container sufficiently tight to prevent escape of fluids or offensive odors.

4) If shipped by common carrier, the body shall be enclosed in a coffin or casket which shall be encased in a well-constructed shipping case acceptable under the rules of the carrier.

e) f)

1) When a death occurs in Cook County, no dead human body may be transported within the State of Illinois, except upon explicit authorization to do so on the basis of a Permit for Disposition of Dead Human Body issued by the appropriate local or subregistrar of vital records, to an regularly Illinois licensed funeral director for a person acting in his/her behalf; except that during the first 72 hours after death, such funeral director may move a dead body which is not subject to the Medical Examiner's autopsy investigation from the place of death to a mortuary in this State without first having obtained a Permit for Disposition of Dead Human Body; provided that in such cases the permit for disposing of the body is obtained before 72 hours have elapsed after the death.

2) When a death occurs outside of Cook County, no dead human body may be transported within the State of Illinois until a Report of Death has been filed with the local registrar of the district where the death occurred. Except that during the first 24 hours after death, the funeral director or person acting as such may move a dead body which is not subject to a coroner's investigation from the place of death to a mortuary in the state without first filing a Report of Death; provided that in such cases, the Report of Death shall be mailed or otherwise is filed within 24 hours of death.

3) No dead human body may be transported into the State of

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENTS

Illinois, unless it is accompanied by a burial-transit permit properly issued in accordance with the laws of the state from whence the body was transported, showing that all precautions required by the State of Illinois have been observed. Such burial-transit permit is sufficient authority also for interment or cremation of the body in Illinois, provided said permit specifies the place and or type of disposition, except in municipalities where local ordinance requires the issuance of a local permit prior to disposition, and except for repatriated U.S. war dead (see Section 500.50(d)(6)).

4) No dead human body shall be transported by common carrier in Illinois, unless accompanied by a Permit for Disposition of Dead Human Body issued by a local registrar of this State or, in case of a body shipped from another state, by a transit or burial-transit permit issued in accordance with the laws of the state from whence the body is shipped.

5) No dead human body shall be transported from Illinois to a point outside this State, unless the body has been prepared in conformity with the laws and regulations of the states through which and to which such transportation is made.

6) Presumptive records of death prepared upon the order of a court of competent jurisdiction shall show as the date of death, the date the order was entered by the court, unless otherwise specified in the order.

f) Upon the death of a person who had or is suspected of having an infectious or communicable disease or who was known to be a carrier or known to be subclinically infected with a disease that could be transmitted through contact with the person's body or bodily fluids, the body shall be labeled "Infectious Hazard," or with an equivalent term to inform persons having subsequent contact with the body, including any funeral director or embalmer, to take suitable precautions.

1) The label shall be prominently displayed on and affixed to the outer wrapping or covering of the body if the body is wrapped or covered in any manner.

2) Responsibility for such labeling shall lie with the attending physician or coroner who certifies death, or if the death occurs in a health care facility, with such staff member as may be designated by the administrator of the facility.

3) Suitable precautions consist of following the guidelines of the Centers for Disease Control (CDC) "Recommendations for

Child Age One to Seven Years

INSTRUCTIONS FOR FILING A DELAYED RECORD OF BIRTH
FOR A CHILD AGE ONE TO SEVEN YEARS

WHOSE BIRTH MAY BE RECORDED? Any living child, who was born in Illinois more than one year but less than seven years ago, whose birth was not recorded before. The birth facts must be proved by documents. See other side of this page. (Record the birth of anyone over one seven write for instructions.)

WHO MAY APPLY? The child's parent, legal guardian, or other legal representative.

HOW TO FILL IN THE DELAYED RECORD OF BIRTH (Form VR 141A). Enter the correct information at items #1 through #8. The affidavit portion (item #9) requires the notarized, personal pen-and-ink signature of the parent, legal guardian, or other legal representative, and address. (A married woman should sign her given names and legal surname.) The notary public must complete his certification, and affix his signature and seal.

(Illegitimate births: If the mother was not married to the father of the child either at the time of conception or birth, the name of the father shall not be entered on the certificate of birth without the written consent of the mother and the person to be named as the father; unless a determination of paternity has been made by a court of competent jurisdiction, in which case a certified copy of the court order shall be submitted. If written consent can be furnished by separate statements by the mother and father, or by having both of them sign a form #9 of the Delayed Record.)

IMPORTANT! Remember, the birth record is an important permanent legal paper; it must be clearly readable. Signatures must be written (not printed) in a permanent black ink. All other entries should be typewritten in black ink or hand-printed clearly with black ink. Strike-overs and erasures should be avoided.

Illinois law requires that each request to file a Delayed Record of Birth shall be accompanied by a fee of \$10.00. This fee entitles the applicant to one certified copy of the Delayed Record of Birth when accepted for filing. Each additional copy is \$2.00 when ordered at the same time. Make check or money order payable to the Illinois Department of Public Health.
